

MCA Inc. Presents  
**Agile Construction® - A Path to Industrialization**  
*A Symposium on Applied Project Management Concepts*  
**Thursday, October 17, 2019**  
**8:00am – 3:00pm**  
**The Crowne Plaza, Northbrook, Illinois**

## Fall Symposium Focus: Using Agile Construction® Tools for Successful Project Management

**When do you know that your jobs are making you money?**

*MCA, Inc.'s studies show it is typically at 80% complete.*

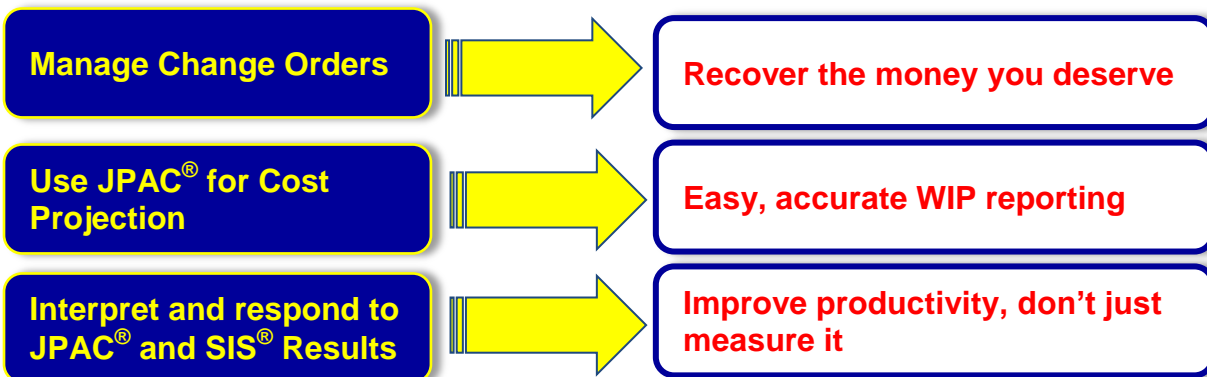

Agile Construction® has been developed and proven for over 20 years, to help Project Managers **PREDICT and PREVENT.**

Jobs don't lose money at the end...they just become more visible.

Come to the Fall Symposium to gain **PREDICTABILITY and VISIBILITY** with Agile Construction® tools.

**For Agile Practitioners,** this Symposium will enhance your Project Managers' usage:

<https://mca-soft.com/product/prefabrication-handbook-for-the-construction-industry/>

This book is a hands-on, practical, and scalable guide to prefabrication. It applies if you are starting from ground zero, or if you are at the 3% mark and trying to get to 50%. The book is not about “benchmarking” or “best practices”; it is grounded in the reality of what other industrialized industries have passed through, which will happen in construction sooner or later. We can learn from history and the science of work (Industrial Engineering), to move faster and with fewer mistakes, rather just comparing to the status quo of “best practices” in today’s construction environment.

Maximum prefab requires a culture of prefab, by understanding the true benefits of prefab which go way beyond saving “hours”. Benefits include risk reduction, increased reliability and predictability of the outcome; reduced uncertainties from the jobsite, an opportunity to train manpower in a controlled environment. Monetarily, the benefits are best quantified as composite rate savings, which reflects a better managed crew ratio and overall productivity improvement.

Purchase of this book includes a three-month complimentary subscription to the **MCA Prefab Forum**.
