We make your company more productive by applying: Lean Engineering, Manufacturing, and Service Processes

Making Productivity Visible to Everyone®

We are about you!®

Coronavirus will Pass

But First: job sites are preparing to shut down and employees are headed home for isolation.

When work starts up again, don't expect job end dates to move enough to compensate for the lost time and the lost productivity.

Construction schedules will compress, manpower will be short, material lead times will stretch, and you are already behind on needed productivity.

What you do today will determine how this year ends for your business

*This is exactly why Agility is needed in Construction –
Agile Contractors and Agile Distributors will emerge successfully!*

MCA is hosting a series of online interactive webinars aimed at helping you to plan and prepare for job site shut down and an efficient return to work. MCA will also focus on capturing data to support claims for impact where appropriate

Don't hesitate; there will not be enough time to sort it out later.

Beginning Tuesday, March 24th, MCA will host an online session with presentation of key topics and relevant actions; and will facilitate live brainstorming to allow similar businesses to share solutions that keep the industry moving forward.

Tuesday, March 24th, 2020

8:30am – 11:30am EST - Electrical Contractors Shut-down planning session

1:30pm – 4:30pm EST - Distributors Shut-down planning session

Friday, March 27th, 2020

8:30am – 11:30am EST - Electrical Contractors resume work Planning

1:30pm – 4:30pm EST - Distributors resume work planning

Registration is required. Sessions will be hosted by MCA via WebEx. You will need to be able to talk, see a shared screen, as well as provide commentary using interactive Chat.
