

And the Rocky Mountain Chapter, NECA  
Present

# Short Interval Scheduling

October 7, 2009 8:00 am – 5:00 pm

Denver Apprenticeship Training Center  
1291 E 54<sup>th</sup> Avenue  
Denver, Co 80216

Cost: \$275 Online - \$290 Paper \$295 Non-Chapter Members

*If you are a Local IBEW 68 JIFP/LMCC contributing Contractor and attend the seminar, the RMC NECA/IBEW JIPF will reimburse the company the registration fee for the successful completion of the seminar.*

Labor Management is the highest risk in Electrical Contracting. With 3-day scheduling, all hidden issues that labors face in their daily work become visible. In this hands-on seminar, students will learn simple methods and tools that can be used to schedule their jobs, to identify the obstacles and reduce labor waste that can improve job productivity by better than 30%. Impact of scheduling on job productivity; tracking forms for 3-day scheduling; charting of data; and analysis and interpretations of charts will be introduced, explained and applied. Students will be tested on what they will do with the analysis once they have correctly designed the data analysis tools. This hands-on workshop is led by **Dr. Perry Danesghari**, an Adjunct Professor at the University of Michigan. Perry has extensive background in improving productivity and profits in various industries.
